OPENING SPEECH TO LARGE CROWD AT HOPTOWN

the base ball team, Us, "first deges" been previously stated the proceeds of this contest and the one already honors are made advancement in educational states, but more progress is needed.

"I am in favor of better schools further deprevement of our educational system, revision of our tax laws, become active, industrial development, internal improvements and on other lines, but more progress is needed.

"I am in favor or better schools further deprevement of our educational system, revision of our tax laws, become active, industrial development of the democrate laws, become active industrial development active industrial development active in the laws have active industrial development active industri

the interest of harmony and

"In the interest of harmony and united temocracy, I am in favor of a convention of democrats to be held niter the primary election is held to adopt a platform."

Senator McCreary's speech was a lucid discussion of present political issues and a severe arraignment of the republican party, and the confident prediction that democratic success both national and in the state, cess, both national and in the state,

was to the near future.

He gave four reasons why the republican party is doomed to defeat, ass Popular dissatisfaction with present

conditions, and especially high prices for the necessaries of life.

The broken pledges of the rep bli-can party on the tariff question. Peo

ple expecting lighter burdens of taxa-Corruption disclosed in certain high

republican circles.
A growing belief that there was an alliance between the republican lead ers and special interests such as manufacturers, organizers of trusts and maintainers of monopolies.

# HOW TO COMBAT **GREAT WHITE PLAGUE**

ANTI-TUBERCULOSIS SOCIE-TY IN SPLENDID LEC-TURE IN STANFORD

TURE IN STANFORD

The stereopticou lecture on Tuberculosis at the Christian church Friday night by Mr. Robert Kerner, of Louisville, secretary of the Society for the Prevention of Tuberculosis, under the auspices of the Woman's Improvement Club, was a great success. A well filled house greeted the speaker, and he had the closest attention throughout. A quartet by members of the club and prayer by Rev. D. M. Walker preceded the lecture. Mr. Kerner was introduced by Mrs. J. J. Dickey, president of the club, who presided. Mr. Kerner is not an orator, but he is a most agreeable speaker. In the Civil War lasting four years 205,060 men were killed. Every year in the United Streen 200,000 men were killed. Every year in the United Streen 200,000 men were killed. Every year in the United Streen 200,000 men were killed. Every year in the United Streen 200,000 men were killed. Every year in the United Streen 200,000 men were killed. Every year in the United Streen 200,000 men were killed. Every year in the United Streen 200,000 men were killed. Every year in the United Streen 200,000 men were killed. Every year in the United Streen 200,000 men were killed. Every year in the United Streen 200,000 men were killed. Every year in the United Streen 200,000 men were killed. Every year in the United Streen 200,000 men were killed. Every year in the United Streen 200,000 men were killed. Every year in the United Streen 200,000 men were killed. Every year in the United Streen 200,000 men were killed. Every year in the United Streen 200,000 men were killed. Every year in the United Streen 200,000 men were killed. Every year in the United Streen 200,000 men were killed and were streen during Arnold, daughter of the late Joe Arnold, daughter

In the Civil War lasting four years 205,060 men were killed. Every year in the United States 200,000 persons die of tuberculosis. Hundreds of millions of dollars are expended by our people annually to prepare for war and hereby prevents war, while only a few millions are expended annually to prevent tuberculosis. This is a preventable disease, as much so as smallpox, yellow fever measles, mumps and whooping cough.

In the great city of New York the deaths have been reduced one half slimply by sanitation. It is as possible to stamp it out of our entire country as it was to stamp yellow fever out of Cuba. The disease is not hered itary. It runs in families because of conditions of tubercular transitions are expended annually to prevent swar, while only a few millions are expended annually to prevent swar, while only a few milling thought the John iligathotham residence and farm containing 70 acres of land on the Stanford pike near town for \$13,000.
